

October 14, 2021

Dear Residents, Families, Staff and Friends,

Unfortunately, we have been informed that another one of our Residents tested positive during routine testing. Happily, the Resident has no symptoms and feels fine.

We have been advised by the Epidemiology Group to isolate the Resident and take precautions for the next 14 days in that unit. The rest of the Residents in that unit will be quarantined for 14 days. The Resident who tested positive is in isolation.

Scheduled visitations for the other units can continue. Please call Raj to schedule appointments, outdoor visits are preferred. Thank God the weather has been cooperating with beautiful days ahead.

Everyone else tested this week — Residents and Staff — have returned with negative results. Be assured we are working diligently, with the cooperation of everyone here present to make this home a safe environment. We hope to return to the normal routine of daily life soon.

Our Home has been blessed with a great spirit of teamwork in everyone helping where needed, this spirit comes from St Jeanne Jugan who surely is watching over us. May God Bless You and your families and may He give you His peace.

Gratefully,
Mother Margaret Regina and the Little Sisters
